

## BIO-STATEMENT

**Isabel León**, Spanish visual artist, performer, independent cultural promoter and teacher. Graduate in Fine Arts and scholarship in Athens (Greece) and La Havana (Cuba). Official Master's Degree in Art Production and Research.

Her work transitions from video to action art, a medium to which she has been intensely dedicated since 2007. She conceives artistic practice as an act closely linked to life, which is why her work is connected to her most intimate feelings, thoughts and emotions. She is interested in the apparently insignificant, the game and the absurd with a work that arises from the here and now and in which she leaves a special space for intuition.

She has participated in numerous festivals, action art meetings and national and international residencies, including art centers and Museums in Spain as well as in Germany, Canada, Morocco, Ucraina, Lituania, Austria or Norway, among others.

She co-coordinates the research and creation project EXCHANGE Live Art and gives workshops in art centers, universities and independent spaces.
